

Playstation 1 RGB cable mod:

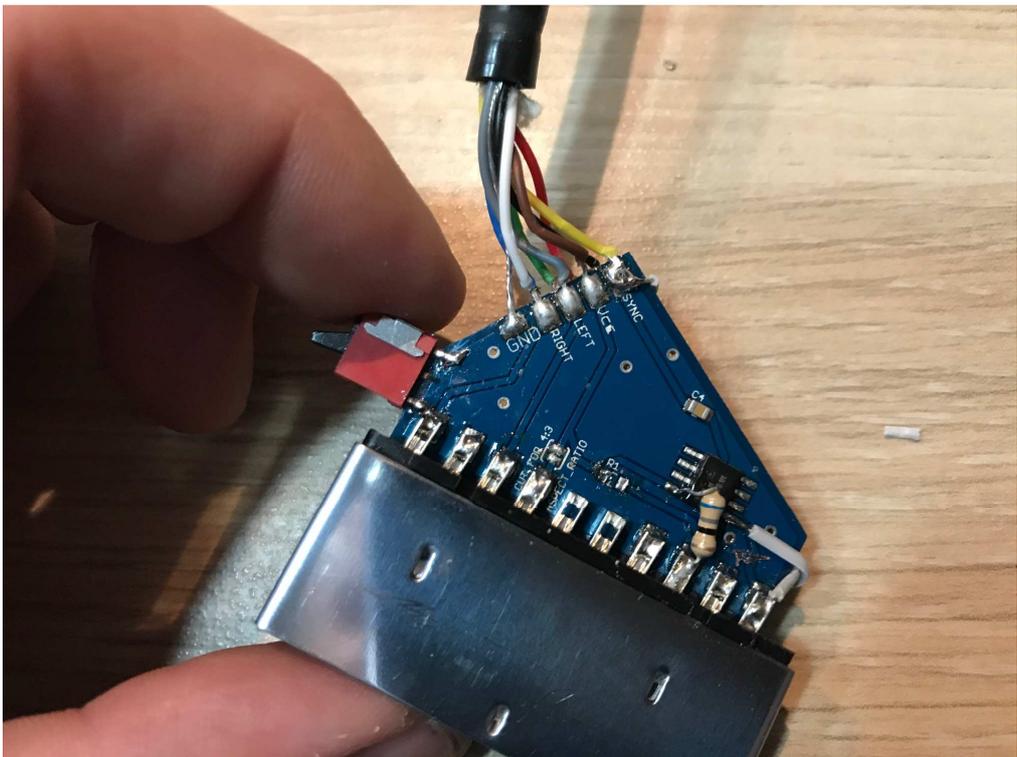

Version 1: easy

- Disconnect cable marked as SYNC (yellow one)
- Connect it to pin 20 of scart socket
- Check, if hydra detects signal
- Cut the trace from LM pin 1 to scart pin 20

Version 2: easy, with switch

- Disconnect cable marked as SYNC (yellow one)
- Cut the trace from LM pin 1 to scart pin 20
- Connect signals to lever switch as shown on diagram
- Check, if hydra detects signal
